

Assembly Guide

Castors

The 60/30 Classic Steel Shelving System & Opal Shelving System

Assembly Guide

Castors without brakes B30600000 & Castors with brakes B30600001

Recommendations:

- Do not install castors onto shelving higher than 152 cm.
- Only install castors on double sided shelving.
- Never install castors on more than three joint units.
- Always have a minimum of two castors with brakes. Must be installed diagonally.
- All uprights must have two castors.

Important:

Remove the nut, washer and the spacer ring before mounting the castor onto the shelving. It is important that the castor is laying against the weld nut on the shelf part.
